DateReceived	10-04-2017

### CommenterWords

Say No to the Northern pass. It is behind my House. I live with my grandson Jason and his family. This is not progress. You would be helping one area and hurting our area. Property values will drop, cancer risk and leukemia risk goes up. This makes no sense. I have seen big business like this over and over again muscle their way in. It is only good for the company and the crooked politicians that are getting their palms greased with money. I say booo. No to the Northern Pass.
